PROJECTS

JECRC - RENAISSANCE | *HTML, CSS, Bootstrap, Javascript, SQL*

- Developed a dynamic and interactive website for the college's annual fest, Renaissance Management.
- Enhanced user engagement through the website by implementing user-friendly features and interactive tools.
- Implemented RazorPay as the payment gateway to optimize online transactions and improve user satisfaction.
- Utilized MySQL and PHP to effectively manage and maintain the database system, ensuring seamless data handling.

LEARNING-EDGE | *XML, Material Design, Firebase*

- Implemented user interface using XML and Material Design, creating an engaging and user-friendly experience.
- Improved user experience by making the app responsive for all Android devices.
- Utilized Firebase Realtime Database to optimize data storage and retrieval processes, facilitating offline access to study materials and question papers.

MARVEL-CINEMATIC UNIVERSE | *HTML, CSS, Bootstrap*

- Developed "Marvel Cinematic Universe" website listing movies and series by phase and release date.
- Ensured high availability and easy access for users by hosting the website on Netlify.
- Implemented responsive design strategies to enhance user experience across multiple devices.

CERTIFICATES

Letter Of Recommendation | Internship Alerts

HTML Workshop | Geeks For Geeks

Programming in C | NPTEL

Virtual Experience Program | AWS

Developer Program by | Accenture

Communication Skills and Resume Writing by | TCS

ACHIEVEMENTS

- Achieved a ranking within the top 30 teams at the **Smart India Hackathon (SIH)** at our college.
- Completed virtual web development internships with **BasketHunt Pvt. Ltd.** and **Internship Alert**.
- Served as a mentor to students in the role of a **Google Cloud Mentor**.
- Engaged actively in **Hacktoberfest 2023**, making contributions to a range of open-source projects.
- Organized workshops and events as a **Google Cloud Facilitator**.
- Solved 100+ questions on GFG, LeetCode, Coding Ninja platforms.
